DETAILED ACTION

Claim Objections

Claims 1-19 are objected to because the preamble states "a construction," indicating an apparatus, while the body of the claim clearly recites a method. The preambles should be changed to --a method of constructing--, for example. Appropriate correction is required.

Claims 1, 2, 8, 12 and 15 are objected to. Claims 1, 2, 12 and 15 recite the limitations "the macadam stratum" (claim 1, line 5), the pipe heads (claim 2, line 3), "the ventilating pipes" (claim 12, line 2) and "the relevant piping" (claim 15, line 3). These terms lack antecedent bases. Regarding claim 8, the term "PU" should not be abbreviated.

While not objected to, it is noted that the recitations which follow the term "can be" in claims 3-10 and 16-19 are not positively recited, since the limitations are not required to be present in the structure. Therefore, all limitations which follow the term "can be" do not further limit the scope of the claim. Effectively, claims 3-10 and 16-19 have been treated as not further limiting the respective parent claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3671

Claim 1 recites the limitation "or other paving" in line 10. It is unclear what this phrase refers to and what is and is not within the scope of this phrase. This phrase must be removed from the claim. This phrase has not been further considered.

The term "burring" (claim 1, line 5) is not understood.

Allowable Subject Matter

Claims 1-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
